## Harry Novotny Now Asst. Chief With Conservation Dept.

### Gov. Stratton Announces Promotion Friday, March 16

Governor William G. Stratton has announced the appointment of Harry A. Novotny, 48, Antioch, as assistant chief of the Law Enforcement division of the Illinois Department of Conservation.

Novotny, who has served the department as Lake county investigator for more than 18 years, will fill the vacancy created by the death of Anthony Maggio, Chicago, March 3. Novotny's headquarters will be in the Chicago office of the department, 160 North LaSalle street, but his duties will be statewide, subject to assignment by James Fitzgerald, Aurora, chief of the division. The other assistant chief is Lewis Cox, Charleston.

Novotny joined the department as a game warden on Oct. 11, 1937, and has made a career of law enforcement. He became well known throughout Illinois through special assignments from time to time, such as State Fair duty, waterfowl protection at Horseshoe Lake, special river details, flood duties along the Ohio, Wabash, Illinois and Mississippi rivers, and works at sports shows and conventions.

Novotny resides on Bluff lake near Antioch in the Fox Chain O' Lakes region, only a short distance out of the Chicago area. He had worked closely with Maggio and is familiar with law enforcement problems in the metropolitan area, as well as those in other sections of the state.

Conservation Director Glen D. Palmer said that Novotny's promotion is in keeping with the policy of the department of developing leaders from the ranks.

## Grade School Band Wins 1st Superior Rate-Dist. Contest

Antioch grade school band won First Superior rating at the district music contest held in Zion Saturday, March 17th. Classes for competition are on the basis of enrollment and Antioch's band was entered in class D. Six bands were entered in that class. All classes, A through E, were in competition.

This is the second time that the band has been entered in state competition, winning first place in the state last year. They will travel to Peoria, April 21, to compete in state finals.

The band director, Mr. George Olisar, is a graduate of DePaul University and is doing graduate work at Northwestern. He is a former member of the N. S. Military band at West Point, has played with the Chicago Symphony, and is now a staff musician on Radio Station WGN.

The number played by the band in the contest at Zion were: "Loyalty," by Skornicka; "Apostle Islands" by Rusch; and "Rusticon" by Frankliser.

The Band Parents Association will hold a pancake party from 4 to 8 p. m. Saturday, April 7. There will be prizes, fun booths and cards.

## W. Rockford in Ill., Shawano, Wisconsin, New State Champions

Shawano is the new high school basketball champion of Wisconsin. That team defeated Appleton in the final contest at Madison Saturday night 74 to 68. It was a battle throughout between two good teams.

Shawano defeated Hale of West Allis which took the Salem tournament after defeating Wilmet. This makes Wilmet look all the better. In Illinois, West Rockford won the state title at Urbana for the second year in a row by defeating Edwardsville in the final game 67 to 65. Excellent basketball was played by both teams with the lead changing several times. Rockford was in the bracket in which Antioch played.

In Indiana, again it was the Indianapolis Attucks, an all-colored team, that won.

## Antioch 14th on List For Interim Census

Indications are that Antioch will have to wait for a while before the U. S. Bureau of the Census in Chicago gets around to taking the local interim census. Thirteen other communities, all in the Chicago area are ahead of her.

There is one consolation about the matter, the longer the village waits, the larger will be the population because new homes are still going up.

## Three Candidates for Grade School Office

Although candidates have until Saturday to file their petitions, it appears as though there will be only three candidates for the three offices on the Antioch Grade School board of education.

Those who have filed so far are Wendell Nelson, Norman Jedele, and Mrs. Helen Patrovsky. Mrs. Patrovsky is the only one of the three seeking re-election.

In the Antioch High School contest, six previously mentioned, have filed so far. There is a report, however, that there is a seventh petition out.

Those already filing are Walter Hills, and Roman Vos, incumbents, Elmer Rentner, a former member, Ruth H. Seyfarth, Virginia L. Filatreault, and Dr. Richard Carlucci.

## District Winner to be Feature Saturday at High School Concert

Featured as soloist in the Antioch Township High School Band concert on Saturday evening will be the senior music student who receives the highest rating at the district music contest.

Soloists will be John Kelly, clarinetist; Arlene Cribb, saxophonist; Lenore McCord, French horn, and Bob Cain, baritone.

The concert will be held in the high school auditorium on Saturday, which is the same day as the district music concert. Doors will open at 7 and the concert will begin promptly at 8 p. m.

Special performing ensemble for the concert will be the pep band which will present their special arrangement of "The Hoke Poke."

Listeners to the concert will hear interpretations of musical masterpieces as well as plenty of musical fun. Following is the program:

National Anthem  
March: Burst of Flame.....Bowles  
Overture: Zampa.....Herold  
Solo by senior contest winner  
Sacred: Holy, Holy, Holy.....Arr. Tone  
Poem: Allerseelen.....Strauss  
Fantasy on American Sailing  
Songs.....Grundman

Intermission  
Solemn Procession.....Grieg  
Blue Mirage.....Coslow and Ollas  
Led by guest director, John Hodge, music director, Grant Community High School  
Irish: Londonderry Air.....Walters  
Novelty: Peck Horn's Revenge.....Bowles

Begin: Blue Mist.....Osterling  
Suite: American Folk Songs.....Walters

Encore selections will include Rock and Roll Waltz, Bugle Call Boogie, Conroe March, and Trombone Toboggan.

## Canvassers Announced For Red Cross Drive In Antioch Community

The Red Cross membership drive is progressing nicely. Mrs. Arnold Koenig, chairman announced yesterday. All parts of Antioch area are being canvassed by a corps of diligent workers.

Last week's appeal for workers made in the Antioch News brought sufficient volunteers, Mrs. Koenig said. The workers and the territory covered are as follows:

Virginia Blake, Antioch Hills, business district, Rtes. 173 and 21, 173 and 59.  
Hilma Lightsey, Rosing's Subd., Beach Grove Rd. to 59, Rte. 21 to Antioch Hills.  
Mary Polley, Naber's Subd.

## High School Baseball And Track Schedules Show Season Nearing

### First Track Meet April 9; Baseball Games on April 13

Baseball and track are now on the agenda for Antioch Township High School.

Schedules announced by Warren Polley, athletic director, show track starting on April 9 in a four-way meet at Palatine between Wauconda, Grayslake, Palatine, and Antioch.

Paul Kessenich is the track coach. It is yet too early to determine what the talent will be this year, but already some of last year's men are limbering up for competition.

The varsity baseball team under the coaching of Larry Leon and the frosh-soph baseball team coached by Jack Grady and Robert Heath will open their season April 13, playing Grayslake. The varsity game will be here and the game of the underclassmen at Grayslake.

The freshman baseball team will play Grayslake here April 14, and a return game there April 28 at 9:30 a. m.

The schedules are as follows:

| Varsity Baseball Schedule |       |
|---------------------------|-------|
| April 13—Grayslake        | Here  |
| April 17—Grant            | There |
| April 20—Wauconda         | There |
| April 24—Glenbrook        | Here  |
| April 24—Glenbrook        | Here  |
| May 1—Palatine            | Here  |
| May 4—Ela-Vernon          | There |
| May 8—Grayslake           | There |
| May 11—Grant              | Here  |
| May 15—Wauconda           | Here  |
| May 18—Glenbrook          | There |
| May 22—Fenton             | Here  |
| May 25—Palatine           | Here  |
| May 29—Ela-Vernon         | Here  |

Games begin at 4:15 p. m.

A. T. H. S. Track Schedule

April 9—Wauconda, Grayslake, Palatine, and Antioch, at Palatine, Varsity only.

April 16—Grayslake, Wauconda, Antioch, at Antioch, Freshman-Sophomore or Varsity.

(Continued on Page 8)

## James Bown, 18, and Girl Companion in Car Crash Sunday

James Bown, son of Mrs. Victor Bown of 465 Lake street, suffered a fracture of his nose and jaw and his companion Miss Arlene Chobot, 17, of Pell Lake, Wis., received fractures of her arm, leg, and possibly one shoulder as the result of an auto accident near Pell Lake at 9:30 p. m. Sunday.

David Moran of Trevor, a third passenger, was merely scratched and bruised.

The young people were on their way from the Chobot home to a skating rink, driving on Marinette rd. which ends at County Trunk U. Not acquainted with the highway, Bown was going too fast to make the abrupt turn at the junction and as the result plowed into an embankment.

The injured couple was taken in a Genoa City ambulance to Burlington Memorial hospital where they are under care. Bown was in a state of shock for several hours. He lost many of his teeth.

A casket handle and a plate bearing the inscription "Our Darling," some rotted wood, and a little yarn was all that remained.

Older residents recall that the Williams who lived in the house now occupied by the family buried a stillborn child on the hill and placed a fence around the grave. Through the many years the fence decayed and disappeared and nothing was left to indicate the grave. The body of the child had returned to dust.

All of the relatives of that generation are dead. Mrs. William Schroeder, daughter of Mr. and Mrs. C. K. Anderson, is a relative and will have opportunity to say what shall be done with the casket materials.

Woodpile Partly Burns  
At Joe Vaughn Place;  
Other Fire Reports

There is one cord of firewood which the Joseph Vaughn family at Villa Rica, Loon Lake won't get much heat from.

The pile of firewood at the Vaughn residence property caught fire from some burning rubbish last evening and a cord of it was destroyed before the Antioch Fire department got there and extinguished the blaze.

Other calls to the department recently included a slough fire that burned north from the high school property east of the Soo Line tracks to the vicinity of the Pierce nursery. The firemen worked hard in preventing the blaze catching nursery stock.

The firemen were called Saturday night to the Raymond Horton residence on Main st. where a kerosene water heater got out of control. Damage was slight.

## Moran Says, "I'll Do Better or Quit"

Thomas J. Moran, the fighting candidate for state's attorney of Lake County pulled no punches in a candidates' talk at the Antioch American Legion home Saturday night.

He blasted what he termed the poor record of State's Attorney Robert C. Nelson of Lake Forest, and promised he would quit if he could not do better.

"I don't like the record that's been established," Moran said. "I pledge here tonight that if I don't do better, I'll resign if elected."

Moran said the state's attorney's office needs four things, which he outlined as Sincerity, Integrity, Diligence, and Courage—courage to avoid temptation.

He denied mud-slinging in the current campaign, and said: "The only thing I have attacked is the record of the state's attorney's office. I won't attack the personal life of the man in office, although I feel that the personal life and activities of a person in such a high and distinguished office should be beyond reproach."

Moran, giving a true Irishman's address on St. Patrick's Day, made his remarks before members of the Antioch-Lake Villa Republican club, at a jam-packed meeting presided over by President Richard Seyfarth.

## Long Forgotten Grave Found by Excavators at Aqua Center Site

While workmen were excavating for the new swimming pool at Williams park last Friday, they unearthed the remains of a child's casket from a grave in a long forgotten private cemetery of the E. B. Williams family.

A casket handle and a plate bearing the inscription "Our Darling," some rotted wood, and a little yarn was all that remained.

Older residents recall that the Williams who lived in the house now occupied by the family buried a stillborn child on the hill and placed a fence around the grave. Through the many years the fence decayed and disappeared and nothing was left to indicate the grave. The body of the child had returned to dust.

All of the relatives of that generation are dead. Mrs. William Schroeder, daughter of Mr. and Mrs. C. K. Anderson, is a relative and will have opportunity to say what shall be done with the casket materials.

## Woodpile Partly Burns At Joe Vaughn Place; Other Fire Reports

There is one cord of firewood which the Joseph Vaughn family at Villa Rica, Loon Lake won't get much heat from.

The pile of firewood at the Vaughn residence property caught fire from some burning rubbish last evening and a cord of it was destroyed before the Antioch Fire department got there and extinguished the blaze.

Other calls to the department recently included a slough fire that burned north from the high school property east of the Soo Line tracks to the vicinity of the Pierce nursery. The firemen worked hard in preventing the blaze catching nursery stock.

The firemen were called Saturday night to the Raymond Horton residence on Main st. where a kerosene water heater got out of control. Damage was slight.

## Grade School Festival Calls for Numbers by Upper Grade Pupils

The annual spring festival of the Antioch grade school will be held at 8 p. m. tomorrow (Friday) in the school auditorium.

Pupils from the fourth through the eighth grades will present special numbers by classes, and to top the whole program will be special selections by the school band which won superior rating at the district contest at Zion last Saturday.

The band will open the program with "Loyalty March" and "Promotion March."

The fourth grade taught by Mrs. Wanda Barthel will present the number "Hail the Discovery," and the second fourth grade class taught by Mrs. Ruth Liddle will give "Tulips and Wooden Shoes." The third fourth grade class taught by Mrs. Fanny Yates will depict "Germany—Cradle of Fine Music."

Fifth graders taught by Mrs. Belinda Dittman will offer "By Gypsy Campfires" as the next selection. At this point in the program the band will play "Apostle Islands," by Rusch.

Fifth grade pupils taught by Mrs. Mary Bruski will present two numbers, "The Tom Toms Beat," and "From Darkest Africa," two associated ideas.

"Singing Voices from Italy" will be the subject of the number presented by Mrs. Kathryn Cain's sixth grade pupils, and "Stories and Song from England," will be offered from the sixth graders taught by Mrs. Arlene Cramer.

Seventh and eighth grade pupils will comprise a chorus in singing "Friendship True," by Mozart, and "Wake Thee, Now, Dearest," a Czech-Slovakian folk song. The final number will be "I Like It Here," by Boland, and the Star Spangled Banner.

George Olisar is the band director, and Mrs. Margaret Aschenbrenner the festival co-ordinator.

## Old House Destroyed on Land to be Used for New Subdivision

A dilapidated house on what formerly was the Heidenreich farm south of Antioch on Rte. 59 was burned Sunday morning under the supervision of the Antioch fire department.

The farm of 57 acres was purchased last fall by Elmer Rentner and Louis Tanner who are planning to open a new subdivision if they get permission from the board of supervisors to rezone the land from farming to residence. The hearing will be before the zoning board of appeals in Antioch Friday afternoon.

The old house was in such bad state of decay that it could not be repaired so the firemen supervised the burning of it. Dangerous wells there will be filled along with the basement.

Rentner said that if the subdivision is permitted there will be about 50 parcels. The smallest will be about three-quarters of an acre. The land is bounded on the east by the Brooks estate.

Two-Way Radio on Fire Truck

A two-way radio set has been installed in one of the Antioch Fire Department trucks and now the firemen can keep in close touch with the rescue squad, which also has a set. Chief Edgar Simonsen says that in addition there can be communication with other departments, the village police department and the county sheriff's office. It will be a big advantage, especially in emergency situations, he said.

## Largest Crowd Ever, Attended Lions Club Banquet for Athletes

### Track Star Jesse Owens Says Education Must Go With Athletics

An estimated 260 persons, the largest number ever to attend an Antioch High School athletic banquet, saw tribute paid Monday night to the large number of boys who participated in sports, and girls who cheered them to victory.

It was the Lion's Club's annual treat to the young athletes and a number of fathers were present as observers.

The students were told that they serve as ambassadors for the community when they play away from home, and the community is judged by their conduct.

This came from Jesse Owens, famous Olympics track man who served as the principal speaker of the evening.

Owens, a member of the Illinois Youth Commission, assured his audience that the social impressions made on the athletes during their competitive events will last far longer than the trophies they receive.

The speaker told of his experiences abroad in his crusade for minority peoples. He said that in India, students who remain students for a long time because they cannot get jobs, heckled him during his speeches over the report that negroes are not given equality in all parts of the United States.

He likewise was criticized ad-

(continued on page 8)

## A.T.H.S. Musicians to Enter Contest at Woodstock Saturday

Antioch High School musicians will participate in the district solo and ensemble contest at Woodstock Saturday.

Nearly 40 of them will leave by bus at 8 a. m. and will return home about 4:30 p. m.

During the forenoon soloists will try for honors, in the afternoon those taking part in duets, quartets and other types of group presentations including madrigal and tower music will perform.

Each contestant will be rated superior, first, second or third according to the quality of his performance.

The student or students making the highest showing will get to perform during the concert in Antioch that evening.

Those who will participate are: Arlene Cribb, Lenore McCord, Elmer Oelkers, Jill O'Haver, Roy Hartman, Sonya Pickus, Dwight Stone, Stephen Aschenbrenner, Lynn Bolton, Bryan Cain, John Kelly, Jay Cribb, Lois Wagner, Robert Cain, Ione Cribb, Ora Paszkiewicz, soloists.

Shirley Cooney, Marilyn Paglus, N. Weterberg, S. January, David Hay, Frank Albert, Mary Tully, Benton January, David Hay, Roy Hartman, Cella Hojem, Barbara Demeck, Kenneth Appleby, Larry Dewar, Nancy Rybacki, Barbara Doolittle, Janet Rogers, Donald Wertz, William Hendricksen, Richard Vlk, Bryan Cain, Ronald Mack, and Dennis Dewar will take part in ensembles together with some of the soloists.

## Mrs. Louis Biel to Head Annual Cancer Drive in Township

"Fight cancer with a check-up—and a check" will be the slogan for the American Cancer Society's 1956 educational and fund-raising crusade in Antioch, which will begin Monday, April 2.

Mrs. Louis A. Biel, campaign chairman for Antioch, in making that announcement, said that the new, eye-catching phrase draws attention to both aspects of the annual ACS drive—1, the raising of money to carry on research to widen control of and find new cures for cancer, and 2, the sharp curtailment of cancer deaths through education and early detection.

"This year, through our new slogan," Mrs. Biel declared, "we are urging everyone in the community to strike back at cancer twice, first with a health checkup, and then with a check, no matter what its size. Both actions are essential for the protection of each individual's health and of the American people generally against cancer, the nation's number 2 killer."

"Past contributions by the public have enabled the extending of that protection as scientists have pushed research forward in quest of new

(continued on page 10)

## Huml and Scully Most Valuable Players

Jesse Owens, world famous sprinter and Olympic star, looks on while Lions Club President Louis Biel congratulates Jerry Huml and James Scully on winning "most valuable player" awards in basketball and football respectively. The awards were made at the Annual Athletic Banquet tendered to the high school athletic department at Antioch high school last Monday evening. Owens was the principal speaker.

### "Courageous and Sound Approach"

There has been so much criticism of Secretary of Agriculture Benson that an inadequately-informed person could readily believe that he and his policies suffer the virtual unanimous opposition of the farmer.

This is not the case. Large, important and far-sighted farm groups respect and support the Secretary and his objectives. For example, the American National Cattlemen's Association, at its recent annual convention in New Orleans, passed a formal resolution commending the Secretary for his "courageous and sound approach" in trying to maintain a free agricultural economy.

The wording is significant. A so-called "solution" to the farm problem which reduces agriculture to bureaucratic domination is far worse than no solution at all. It is to the credit of the cattlemen and other livestock producers that they have long understood this and have been leaders in opposing proposals which would take away their freedom and independence in return for federal handouts. And they have held that position during periods when meat prices have been seriously depressed.

Regardless of who heads the Department of Agriculture in the future, regardless of what changes for good or ill take place in the agricultural economy, the maintenance of the farmer's freedom within our free enterprise system should be the basic goal of all.

\* \* \*

### The Right-to-Work States

Eighteen states have passed right-to-work laws. While they differ in detail, in broad principle they are all the same. They guarantee that a man has a right to join or not to join a labor union or any other legitimate private organization, and still get and keep

a job. In short, they protect him against coercion by either the employer or the union.

One argument against these laws is that they hurt the economy generally. But a survey made of the 12 states which have had the laws since 1947, and so have had a chance to see just what results have been, belies that absolutely. These states have matched or outstripped national average gains in such important barometers of economic health as non-farm employment, business in operation, population growth, per capita earnings, retail sales, new construction and bank savings accounts. In some cases the differences are spectacular—business and personal savings, for example, increased 34 per cent more in the right-to-work states than in others.

No one claims that the laws alone are the reason for such improvement. But the facts certainly prove that the laws in no way hurt workers or others.

Going beyond the statistics, the truth is that the right to work is as fundamental as religious freedom and the right of free speech, free assembly, and free press. Where the right to work does not exist, there is no real freedom.

\* \* \*

### "Competition Will Be Tougher Than Ever"

Chain Store Age has something significant to say about the prospects of retailing in 1956: "The indications are that retail sales will be bigger than ever . . . But . . . this does not mean that the increased volume will be evenly distributed. It won't. One reason it won't is the great number of new stores that will be in the picture. In other words, competition will be tougher than ever, and every merchant will have to do his best even to equal last year's volume—let alone get his share of the additional business which will certainly be available."

A survey indicates that the chains will open 10,000 stores in 1956, as against 8,950 last year. Additional thousands will be opened by independent merchants, who will be competing vigorously both with the chains and among themselves for the fickle favor of the buying public.

What does this mean to you, the consumer? It means that there will be more informative and interesting advertising and other promotion. And it means, price-wise, that you will get the best possible return from your retail dollar.

These are the sure fruits of free and open competition.

Hahn, Kenosha spent Sunday afternoon at the Albrecht-Schubert home.

Mr. and Mrs. Raymond Hirschmiller and Judy spent Thursday evening with Mr. and Mrs. Floyd Gyger, Sr.

Mr. and Mrs. Robert St. John and Sandra moved into their new home Tuesday.

Floyd Gyger, Sr., and John Gyger, Libertyville, spent the weekend with their parents, Mr. and Mrs. Charles Gyger, Quincy, Ill.

Mrs. Virgil Richter, Twin Lakes, and Mrs. Arthur Holdorf, Silver Lake, spent Friday afternoon with Mr. and Mrs. Frank Kruckman.

Mr. and Mrs. Frank Zarnstorff, Sr., Mr. and Mrs. Alfred Oetting and family, Mr. and Mrs. Gust Neuman, Fred Riemann, Mr. and Mrs. Floyd Zarnstorff, Kenosha and Jack attended the waffle-chili supper at Wheatland school Sunday evening.

Mr. and Mrs. Chester Paasch and Geraldine, Lake Villa, spent Friday afternoon with Mrs. Gust Neuman.

Mrs. Frank Jahns, Mrs. Ben Elverman were Saturday luncheon guests of Mr. and Mrs. Gust Neuman.

Fred Riemann, Lloyd Stoen, Louis Rausch motored to Kewauuee and Rio Creek, Wis., Saturday.

Mrs. Harry McDougall spent a few days with Mr. and Mrs. Don Herrick, Oak Park.

Mr. and Mrs. Ted Leitling and family, Ft. Atkinson, Mr. and Mrs. Melvin Leitling, Pleasant Prairie, Mr. and Mrs. Kenneth Leitling, Kenosha, spent Sunday with Mr. and Mrs. Ervin Rasch.

Mrs. James Seitz called on Anita

Hunter Sunday afternoon at the Burlington Memorial hospital. She returned to her home Monday.

Mrs. Henry Vincent and Patsy Goulding spent Sunday with Mr. and Mrs. Floyd Memler.

Mr. and Mrs. Geoffrey Goulding and Kathy spent Sunday with Mr. and Mrs. Wm. Maxey, Libertyville.

Mr. and Mrs. Ike Jacobs, DeKalb, Ill., spent the week-end with Mrs. Clem Tilton.

Let an **ELECTRIC** Dryer do the work on washdays—  
Electric heat's the cleanest, fastest, dryest heat there is... and electric dryers cost less!

Why clutter up the kitchen with wet wash? The quick, easy way to dry clothes is with an electric dryer. Just load it, set the controls and you're done.

Nothing but pure, clean electrically heated air ever touches your clothes in an electric dryer. That's why everything comes out smelling sweet and fresh.

Electric dryers are great for hard-to-dry things like throw rugs, jeans and baby blankets. Yet even your most delicate fab-

rics are perfectly safe. (Controls are very accurate.)

Can't fade colors the way the sun will. And the complete cost of drying a load in an electric dryer is only 7¢.

You can own an electric dryer for less than \$2 a week. Installation is little in any home with good wiring.

Electric Dryers Cost Less—no outside vent needed. Automatic—no lighting devices necessary.

## More Car Plates Since Dec. 1, Than in Whole Year of 1953, Report

Springfield, Ill. — Secretary of State Charles F. Carpenter announced today that during the 75 working days since December 1, 1955, his office has issued more passenger car license plates than in the entire year of 1953 and has reached 92 per cent of the total for all of last year.

Passenger car registration at the end of February this year was 2,618,777, he reported. For all of 1953 it was 2,580,878, and for all of 1955 it was 2,656,869.

This marks the first time in the history of the sale of passenger car plates that so many owners had registered their vehicles by such an early date, Secretary Carpenter said.

Mr. Carpenter attributed the early registration to the establishment of February 15 as the deadline for exhibiting current plates, the earliest in recent times, and the close cooperation of state, county and city police in the enforcement of the time limit.

## Hudson Dealer Offers Spring Service Tips

Antioch, March 22—In the Spring, a young man's (or woman's) fancy should turn to the mechanical condition of the family automobile, according to Jim Maplethorpe, owner of The Main Garage.

Maplethorpe said owners would be well advised to heed the recommendations of automobile engineers and give their cars a complete spring "safety-check."

"Car owners who follow this practice can avoid costly repairs and unnecessary inconvenience," he said. "The result is months of carefree spring and summer motoring."

Maplethorpe said that his dealer-

ship, located on Main street, will check mechanical equipment without charge and recommend any adjustments or repairs necessary. He suggested motorists observe the following basic mechanical "safety-checks" as essential to trouble-free driving:

The cooling system should be drained of anti-freeze, flushed, and refilled with clean water. Plain water is the best summer coolant, according to Maplethorpe, since it offers superior heat transfer qualities. Check the fan belt for wear, and adjust if necessary. Leaks may have developed in the water pump or hose connections, and, if discovered, given immediate attention. A rust inhibitor added to the cooling system affords extra protection.

The engine's performance and economy will be increased if properly tuned. Clean and adjust spark-plugs and distributor points; inspect and clean battery and electrical connections; check carburetor for leaks and adjust to proper idling speed for warmer weather conditions.

Brakes, which should always be in top condition regardless of season, should be adjusted and the linings inspected. If the lining is worn, replace it. Fill the master cylinder with the best quality brake fluid.

Rotate the tires and examine for cuts, bruises, and worn tread. If tires are damaged or worn they should be replaced. Any attempt to squeeze the last mile from a tire is not worth the risk involved, he said.

A complete lubrication of the entire chassis is recommended, and the crankcase drained and refilled with summer grade oil. Replace the oil filter cartridge, and flush and refill the oil-bath cleaner.

Good visibility is an important aid to safety. Worn wiper blades should

be replaced, and the windshield washer system inspected for proper function. Headlights should be checked for correct focus, and all other lighting should be in good operating condition.

## EXON MOTOR SERVICE

Daily Service from  
Antioch to Chicago  
PHONE LIBERTYVILLE 2-3570  
Chicago Office and Warehouse  
2519 S. Artesian Ave.  
Tel. Cliffside 4-1127

He also recommended attention be given the automobile's exterior. Remove the dents, touch up scratches or nicks in the paint, clean rust from the chrome, and finally apply

a good coat of wax or polish. The interior should be thoroughly cleaned, and for an added touch, replace worn floor mats and install bright new seat covers.

## AUCTION

The undersigned will offer the following personal property for sale at public auction on the farm located on West City Limits of Kenosha, Wis., on corner 41st Street and 52nd Avenue, on

**TUESDAY, MARCH 27—commencing at 1:00 o'clock**

# SOCIETY EVENTS

## Antioch Club Hears Lecture on Gems by Mrs. Yvonne Lambert

Mrs. Yvonne Lambert spoke on "The romance of Gems" before the Antioch Woman's Club on Monday afternoon. She is a native of Paris, France, and had cut and polished many of the stones which she showed.

Mrs. Lambert classified the precious stones as the diamond, ruby, sapphire and pearl and spoke in a complimentary fashion about their synthetics which are man made with the identical elements. She warned never to buy the largest of the synthetics, for they would be labeled as fakes for people would know by their size that only kings could afford them.

Glass imitations she pointed out were detectable by their molded looking facets, ability to readily absorb heat from the skin and that a drop of water placed upon one with a toothpick would readily spread out. She said that it was a good idea to have the jeweler write out exactly what he was selling you.

Mrs. Lambert pointed out that a number of the semi-precious stones are varieties of quartz—amethysts, opals and even onyx might be of this stone she said.

Before her talk, Mrs. William Brook, program chairman, reported that she had made plans for the club to go to Milwaukee on April 9 for a tour of the Johnston connection and trucker company, a luncheon and a chance for shopping. The trip will be made by auto.

Mrs. Nora Diamond of Waukegan and Miss Grace Musselman, state public health nurse from Aurora, were present at the meeting to talk about the proposed county health unit. They felt that there is a growing need for one as the rapid population rise was making new sanitary problems which needed the attention of local sanitary engineers such as would be hired.

Mrs. Joseph Patrovsky, Sr., was in charge of the party given by the club for a ward of Downey hospital patients on Tuesday evening. She was assisted by Mrs. Donald Francisco, Mrs. Alma Bobzein and Mrs. A. H. Kaufmann. Mrs. Grace Timmersman played the solovox.

## Antioch Methodists Announce Services

Holy Week services at the Antioch church will start Palm Sunday, March 25, with regular services.

Maundy Thursday, March 29, will be the occasion for the service of the Lord's supper at 8 p. m. The Methodist church practices open communion.

The choir will sing sacred music at the Good Friday worship service at 8 p. m.

There will be three services of worship on Easter Sunday—at 8, 9:30 and 11 a. m. Sunday school for the nursery through the sixth grade at 9:30 a. m.

Sunrise service at 6:30 a. m. on Easter will be sponsored by the Methodist Youth Fellowship. The meeting will be at the church and breakfast will follow the service at 7:30 a. m. Reservations are to be made with the high school youth.

## Sunrise Easter Service At Round Lake Beach

The Baptist Bible Church of Round Lake Beach, Cedar Lake rd., invites all who can to attend the Easter Sunrise service at 6:30 a. m. April 1, on the lake front, across from L. B. Harris office. The service is being sponsored by them and three other local churches: Lake Region Bible Church, Fox Lake Baptist church and Indian Hill Bible Church. The ladies of the Baptist Bible church will serve breakfast at the church after the services.

The St. Patrick's Day party for the teen-agers of the Baptist Bible church and their friends was a huge success. Refreshments and decorations were made by Marge Evans and Edith Nolan.

Friday, March 23 is the teen-agers regular youth night. The fun starts at 7:30 p. m. at the church, Cedar Lake road and Highland Terrace.

## Grand Lecturers Night Of O. E. S. to Be Held Thursday, March 29

Mrs. Harriet Davis, grand lecturer and instructress of Antioch chapter Order of the Eastern Star, will serve as worthy matron at a special meeting of the chapter March 29. All officers will be filled by grand lecturers.

## Card and Bunco Party March 26

The Mothers Booster club of Troop No. 91, Boy Scouts of America will sponsor a card and bunco party Monday evening, March 26, at the American Legion home, Ida ave. Proceeds will be used to purchase additional equipment for the troop.

Harvey Stramel, son of Mr. and Mrs. Rudy Stramel of Grass Lake, enlisted in the Marines and left Antioch Wednesday for San Diego, Calif., where he will be stationed for his boot training.

## Grass Lake P.T.A. Shown Sketches of Proposed Addition

Grass Lake PTA members were shown a sketch of a proposed new addition to the school building at a meeting Monday.

An open meeting concerning the addition will be held April 4 when Roy Frazier, member of the board will again show the sketch and explain school housing problems.

A nominating committee for the PTA was named. It comprises Mrs. Roy Frazier, Mrs. William Zale, and Mrs. Lester Hribar.

Reports were given concerning a card party planned for Friday, April 20, and the school picnic.

A shower was held for the school kitchen with money donated for silver and towels.

It was announced that the Scouts will hold a square dance and basket supper Sunday, April 15 at a place to be decided later.

## Women of Moose Initiate Seven at Meeting Mar. 15

Women of the Moose, chapter 735, initiated six new members into the order and one into the home chapter at a meeting held last Thursday, March 15.

Reports of standing committees were heard and the chairman of the Library and Social service committee announced that the committee would sponsor a card party and style show sometime in April.

After adjournment refreshments were served by Mildred Gillum and committee.

## MISS NANCY VANC FETED THURS. AT BRIDAL SHOWER

Misses Judi Gaston, Barbara Forbrich and Joan Cervenka entertained at a miscellaneous bridal shower in honor of Miss Nancy Vanc, who will become the bride of Robert Scott, April 14. The affair was held at the Salem Grade school last Thursday evening. Following a luncheon Miss Vanc opened her many beautiful gifts received from the group. Miss Vanc is the daughter of Mr. and Mrs. Frank Vanc of Cross Lake and Mr. Scott is the son of Mr. and Mrs. Fred Scott of Antioch. The couple plan to make their home in the East, where Mr. Scott is stationed with the U. S. Army.

## MRS. WILLIAMS HONORED ON BIRTHDAY ANNIVERSARY

Mrs. R. D. Williams was guest of honor at a surprise birthday dinner and party given by a number of friends at her home Monday evening.

## FORMER LOON LAKE RESIDENT WANTS TO RETURN HERE

Lt. Col. Albert C. Wolfe, retired army commander, who formerly lived on the east shore of Loon lake, called at the Antioch News last evening and said that he is again seeking a lake front home in this area. He now lives in Waukegan. Wolfe is a mere shadow of his former self. Wolfe said he spent years in a Japanese prison during World War II and the resulting illness which kept him for a long time in Walter Reed hospital, took a toll on his weight.

Now able to be out on crutches, he has obtained a special type of hand operation of an automobile and is able to travel.

Wolfe served as a major in the infantry with the Scouts in the Philippines during the war when he was captured.

## Bishop Christens Baby

The Rt. Rev. Charles L. Street, suffragan bishop of the Episcopal church in the Chicago area officiated at 8 p. m. Sunday in the christening of Pamela Anne, daughter of the Rev. and Mrs. Edmond E. Hood of Antioch. The service took place at St. Ignatius Episcopal church where Fr. Hood is the rector.

## Lions Business Meeting

The Lions Club will hold a business meeting Monday at Smart's Country House.

## Senior Musicians Enter Contest

Senior soloists representing Antioch Township High School in the state district music contest at Woodstock on Saturday, March 24, will be L. to R. Robert Cain, baritone; Lenore McCord, French horn; John Kelly, clarinet; and Arlene Cribb, saxophone. Soloist rating highest in the contest will be featured soloist in the spring concert on Saturday night in the Antioch Township High School auditorium.

## Judge Minard Hulse Will Be Speaker At Meeting April 16

Judge Minard E. Hulse will be the principal speaker at the next regular meeting of the Antioch Grade school PTA, according to announcement made at a meeting held Monday evening.

The meeting was featured by the presentation of the grade school band which was rated 1st Superior at the district contest held March 17th. The band presented several fine numbers, part of which were the selections played at the contest.

The Band Parents Association told of plans to promote a bakery sale on March 31, and a pancake supper set for April 17. Both of these events will swell the fund which is being raised to provide uniforms for the band members.

Refreshments were served by the second grade mothers including Mesdames Charles Munder, Norman Jedele, Jack Crandall, William Johnson, and Robert Taylor.

## Visit Purina Research Farm at Gray Summit, Mo.

Mr. and Mrs. George Wagner were among approximately 300 farmers from this section of the country who visited the Purina Research Farm at Gray Summit, Missouri, last Monday and spent the following day seeing the company's research laboratories and general office in St. Louis.

Thousands of farmers from all sections of the United States and many from foreign countries visit the farm each year to see results of experiments conducted there in livestock and poultry feeding and management. The 738 acre farm is devoted entirely to farm research projects.

## 28 More Contributors To Lake Villa Fund

There were 28 contributors to the Lake Villa Rescue Squad fund during the week ending Tuesday. The list includes:

Chas. E. Madsen, A. E. Moisan, Frank Slazes, Robt. Kammen, John Gleason, Chas. E. Galloway, Louise Dutton, O. F. Wilton, Carl Meinersmann, Peter Hollack, Harold Saladay.

E. Maas, John K. Cribb, Jr., Kenneth M. Loe, Jim Carlson, A. B. Henson, Lyle Fast, Donna and Janet Anderson, Carl Anderson, Thor Jensen, Clifford F. Anderson, B. Thante, R. J. Swenson, Ed Moelth, Harry Giles, Perry Quin, Knute Nelson, and Neergaard Grocery.

## CELEBRATES EIGHTY-SECOND BIRTHDAY ANNIVERSARY

Mrs. Mollie Somerville, a resident of Antioch for the past 54 years, celebrated her eighty-second birthday anniversary recently, at the home of her son, Earle and wife in Chicago. Fifteen guests enjoyed the dinner and birthday cake, served by the hostesses.

## ENTERTAINS PINOCHLE CLUB

Mrs. Simon Simonson was hostess to the members of her pinochle club at her home Tuesday afternoon. Luncheon was served following the games.

## Boy Scout Paper Drive

Antioch Boy Scout Troop 92 will conduct a paper drive starting Saturday and lasting until April 14. Pickup service may be had by calling 641-J, 1043, or 539.

Mrs. Theodora Kutz, worthy matron of Antioch chapter, Order of the Eastern Star served as guest of honor on Friends night, March 15, at Deerfield chapter.

Mr. and Mrs. J. H. Hood of Champagne spent the week end with their son, the Rev. Edmond Hood and family.

Mr. and Mrs. Harold Olsen of the Olsen Furniture, and daughter Gladys June, left Antioch, Wednesday for a vacation in Miami, Florida.

## Business Failures Outnumber Farm Ownership Losses

MINNEAPOLIS—Among the over four million large and small businesses in the United States, ownerships are being terminated more than three times as rapidly as are farm ownerships. This in spite of the fact that the last five years have seen rising prosperity for business along with declining income for agriculture.

Over the five year period, 1950-54, business ownerships were terminated, either by sale to new owners or by liquidation of the concerns, at an average annual rate of 167 per 1,000 firms, a study of Department of Commerce figures show.

Department of Agriculture figures for the same period show an average of 50 farm ownerships per 1,000 were terminated annually—35 of them by sale or trade to new owners, 13 by inheritance, gift, etc., and 2 by foreclosure or bankruptcy.

A 1946 study by the Department of Commerce found that only about one-half of all business liquidations were to wind up losing ventures. Applied to the business liquidation figures above, this would mean that from 30 to 35 out of each 1,000 American businesses are being ended each year because they are unsuccessful ventures; the remainder of the liquidations are for other reasons—death or retirement of owners, etc.

## More Marriages Reported in 1955

NEW YORK—There were 1,532,000 marriages in the United States during 1955, insurance company statisticians estimate.

This figure represents a 3 per cent increase over the 1954 total of 1,483,000 marriages, but is somewhat below the 1,545,000 marriages of 1953.

The statisticians do not foresee any appreciable change in the marriage rate during the leap year 1956. In fact, they do not expect a marked rise in the number of marriages for several years to come.

"After the early 1930's, however, there should be quite an upsurge in marriages as the large number of babies born during the war and postwar years enter the marriageable ages," the statisticians comment.

Each geographic division of the country shared in the small rise in marriages between 1954 and 1955, with the largest increases occurring in the Pacific and Mountain regions, where they amounted to 5.4 and 4.9 per cent respectively.

## Male Mental Patients Outnumber Female

NEW YORK—More men than women are hospitalized for mental disorders in the United States. During 1951, the most recent year for which figures are available, about 95,000 males and 76,000 females were admitted for the first time to mental hospitals.

For both males and females, the rates for the first admission to a hospital are lowest at the younger ages and highest among the aged. About half of all patients admitted to mental hospitals for the first time during the year were under 45 years of age, only one-tenth were under age 25, and less than 1 per cent were under age 15.

Progress in the treatment of mental disorders is evidenced by a substantial increase in recovery rates as reflected by a higher proportion of releases from mental institutions.

## Baby Boom Continues To Set Newer Highs

NEW YORK—The baby boom persisted through 1955 in the United States with the total number of births reaching a new high of approximately 4,100,000, statisticians report.

The estimated birth figure for the year compares with 4,073,000 for 1954 and 3,965,000 for 1953. Since World War II births have averaged 3,800,000 annually. The 1955 total was at the rate of 24.9 births per 1,000 of population residing in the United States.

In 1955 infant mortality declined to a new low rate of 26.4 per 1,000 live births, which is about 1 1/4 per cent below the previous minimum established in 1954, and 30 per cent lower than the 1953 rate.

### Cute Coyote

McINTOSH, S. D.—The Coyote Seferious Ternes shot was more like a cat—it apparently had two lives. Ternes shot the coyote and tossed it into the trunk of his car. The next morning, he found it sitting in the back seat. It had come to and chewed and clawed its way from the trunk. Another shot finished it.

## Constructive Hobby Sound Base for Longer Living

CINCINNATI—If you're getting on in years, having a hobby is more than a "bright idea," it's sound medical advice.

Dr. Ewald W. Busse, chief psychiatrist at Duke University, emphasized at a symposium on aging that this recommendation is based on statistical evidence.

"Our studies indicate that individuals who continue to pursue a gainful occupation even though they are past the usual age of retirement and others who occupy their time with planned activity have relatively few depressive moods. They are strikingly different from people who have had to be hospitalized because they are unable to adjust in the community," he said.

"The people requiring hospitalization were almost devoid of any interest which could satisfy their needs as a well selected hobby can do," he emphasized.

"For this reason, I believe the physician is responsible for making sure his patients who are approaching retirement or are on the threshold of old age provide themselves sources of entertainment and emotional rewards by developing planned creative and recreational activity," he said.

However, he warned against hobbies which are predominantly "receiving," such as radio, watching television and movies. "Although such activity does have some usefulness, it can be very dangerous if it occupies the major portion of an individual's time," he said.

## Senate Debates More Than Hot Air

LOS ANGELES—Is U. S. Senate debate significant or is it just so much political hot air?

Such debate does play a significant role in shaping national policy, believes Dr. Earl Cain, a speech instructor on the Los Angeles campus of the University of California. He has been analyzing important Senate debates for a number of years by studying speeches printed in the "Congressional Record," and other sources.

One of the longest, and most impassioned, Senate debates of modern times concerned America's neutrality in the 1930's. Through these debates, says Dr. Cain, the arguments and appeals of isolationism were kept constantly before the people.

For example, an examination of 19 geographically distributed newspapers from August 10 to August 29, 1940, revealed that the Senate neutrality debate was front page news on 14 of these 20 days. At least 89 editorials, 25 photographs, and 33 cartoons occasioned by the debate appeared in the 19 newspapers analyzed.

## Nation's Death Rate Considerably Lower

NEW YORK—Prevailing mortality among Americans in the middle and later ages is much lower than two decades ago, according to the statisticians of the Metropolitan Life Insurance Company.

This trend is reflected in the experience of the company's industrial policyholders. Among those insured the death rate from all causes for white men at ages 45 to 74 fell from 29.9 per 1,000 in 1935 to 22.5 in 1954, a decline of 25 per cent. The corresponding decrease among white women was even greater—from 21.6 to 12.2 per 1,000 or nearly 45 per cent.

For each sex, the relative improvement in mortality was somewhat greater at ages 45 to 54 than at the later ages.

## New Weapons for Leap Year Loreleis

NEW YORK—The nation's 21 million leap-year Loreleis have new scientific information for their husband-hunting efforts.

There's only one chance in ten that a warm kiss will transmit a common cold, an expert points out, and some doctors say that a little love and affection go a long way toward preventing the sniffles and sneezes.

Four University of California professors recently asserted that love-starved emotions may predispose people to more than their share of runny noses.

### Slightly Hurt

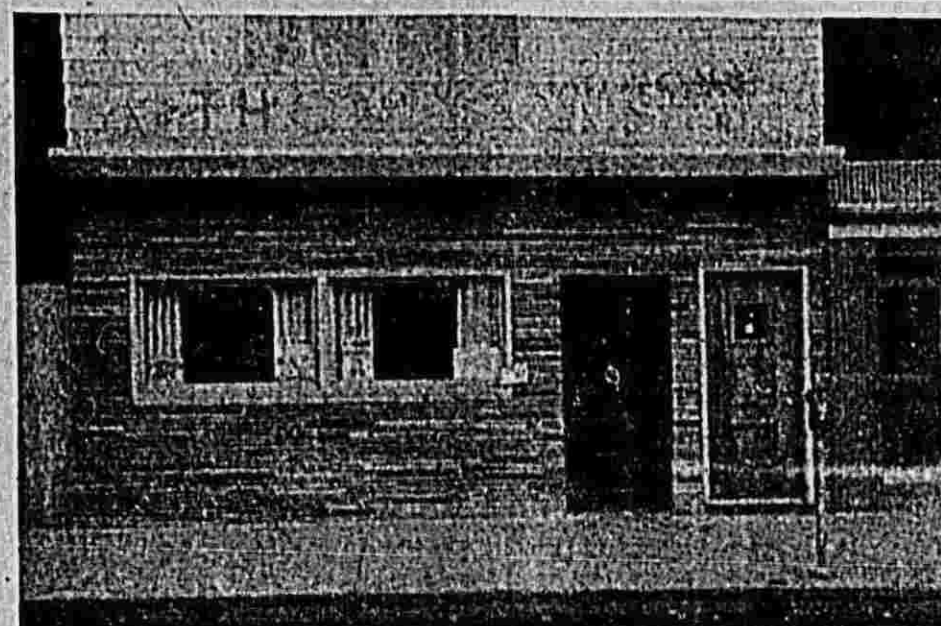

PEKIN, Ill.—An attorney for an automobile accident victim charged in a suit filed here that his client's bones had been "broken, crushed and dislocated, his neck, spine, arms, legs, body, head, and bones, joints, muscles, tendons, nerves, membranes, ligaments and vessels thereof seriously cut, contused bruised, lacerated, sprained, wrenched, swollen, inflamed, weakened, twisted and torn."

## Excavation for Swimming Pool

Excavation for the new Aqua Center at Williams Park is shown here. Soon will come the pouring of concrete and installation of plumbing under the direction of John Blackman, Art Laursen, and Irving Carey.

## New Front for Thompson's

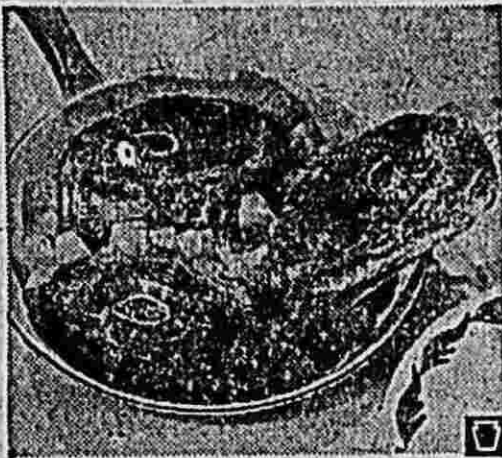

A new front and a remodeled interior has made the Thompson Grill on Main st. one of the most attractive of Antioch's taverns.

### Grass Fire Today

A grass fire at the Walter Roberts place, 1 mile east on route 173, called firemen out at about 11 a. m. today. The fire was caused by burning material being blown from a garbage burner and setting the adjacent field on fire. No damage was reported.

## LAMB STARS IN SKILLET MEAL

Like to relax a bit before dinner? Take the long-time partners—lamb chops and pineapple; add a covered skillet—old favorite heavy iron, colorful new porcelain-coated cast aluminum, or versatile automatic electric skillet; and there you have it—thirty precious minutes of freedom from the kitchen at a time you are usually chained to the range.

This easy-to-do skillet meal makes use of low-cost, meaty, full-of-flavor shoulder lamb chops. Tender enough to be oven-broiled or pan-fried, accommodating as oven and casserole meals, these shoulder chops are a good buy any time of the year.

### LAMB SKILLET MEAL

Using 1 lamb shoulder chop for each serving, melt small amount of butter in heavy skillet and brown chops over moderate heat, turning once. Sprinkle with salt, pepper, a dash of powdered thyme, minced parsley. Add half slices or cut pieces of canned pineapple, and, if desired, raw carrots cut in finger-sized strips. Pour in 1/4 cup of the pineapple syrup, more if liquid cooks low. Cover tightly and cook very slowly until fork-tender, about 35 minutes for 3/4-inch thick lamb chops. Serve hot with steamed rice and a tossed green salad.

## New Electronic Device Creates "Third Ear"

PALO ALTO, CALIF.—Science now gives the world a "third ear" by use of miracle transistors not much bigger than the eraser on an ordinary lead pencil. These tiny electronic giants are the powerhouses behind a new invention that amplifies the sound in telephone receivers up to 7 times!

Known as Tel-O-Aid, this new device instantly fits over the receiver of any telephone and is held securely in place by a spring clip. "Tel-O-Aid," according to its inventor, Dr. G. R. Fisher of Fisher Research Laboratory, Inc., here, "opens a new vista of sound for those who rely on telephone conversations either in business or as a means of everyday communication. The hard-of-hearing will find it especially helpful."

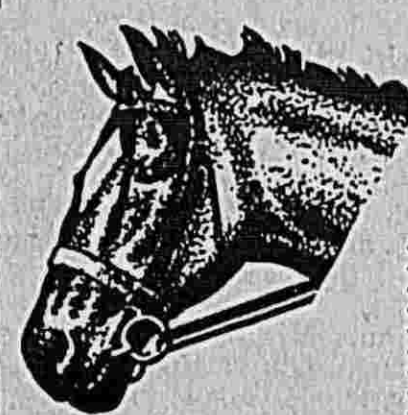

Full unit weighs a mere 3 ounces and easily fits in pocket or purse for use wherever you are. Power is supplied by three tiny batteries designed to last a full year.

## Central High School Students Complete Driver Education

Announcement was made today by Principal A. H. Erickson that 42 students at Central high school have just completed a classroom course in Driver Education. Student Certificates indicating satisfactory completion of the program have been issued by the Motor Vehicle Department. They are accepted in lieu of the knowledge test if application is made within one year for a permit to learn to drive.

"The most important objective of a driver education course is to help young people become better citizens through the acquisition of knowledge and improved attitudes in relation to the proper use of motor vehicles under all conditions. Accident statistics reveal that the majority of traffic accidents are brought about by human errors. We have attempted to teach these students how to recognize and avoid these costly errors," the principal stated.

The instructor, Clifford Peterson, has devoted many hours to acquaint the students with the rules of the road and good driving practices. Much time was spent on evaluating the physical, mental and emotional qualifications of drivers and understanding the application of these factors in safer driving.

\*2-door, 6-passenger Buick SPECIAL Sedan, Model 48, illustrated. Any state and local taxes, additional. Prices may vary slightly in adjoining communities. A wide variety of extra-cost equipment and accessories available at your option.

WHEN BETTER AUTOMOBILES ARE BUILT  
BUICK WILL BUILD THEM

**T**HIS is the one that measures BIG — by any yardstick you choose...

**BIG** in solid pounds and honest inches...

**BIG** in high-compression horsepower...

**BIG**, best of all, in the way it makes small money talk.

For, this strapping beauty is the 1956 Buick SPECIAL — biggest package of high-fashion luxury and high-stepping performance ever offered in Buick's lowest-priced Series.

What that boils down to is just this:

You can call this brawny Buick your own for only a few dollars more than the price of the well-known smaller cars — for even less than some models of those very same cars. And the price we proudly print here backs up that statement.

But low price, alone, doesn't explain why Buick outsells every other car in America except the two well-known smaller ones.

The big reason, you will find, is because Buick gives you so much more pure automobile for the money.

You'll find it in the bigger thrill you get from commanding the agile might of Buick's big new 322-cubic-inch V8 engine.

You'll find it in the greater smoothness of Buick's superb new ride — in the utter serenity of Buick's new handling ease — in the bigger satisfaction of Buick size and roominess and steadiness and styling.

You'll find it, too, in the fact that here you can get the matchless smoothness of the world's most modern transmission. For, at your option, you can also have the new double-action take-off — and the extra gas-saving mileage — of Buick's advanced new Variable Pitch Dynaflo†.

So, how about it? Will you come in real soon? We've got the facts and the figures — and the car — to prove everything we've told you — waiting for you.

†New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.

Join Buick's "THRILL-A-MINUTE CLUB"  
Just drop in and drive a 1956 Buick. Discover the new thrills in ride, handling, power and switch-pitch performance to be had in the Best Buick Yet.

## Volcanic Areas Held New Source Of Power and Heat

WASHINGTON—Engineers more and more look to the world's volcanic areas as sources of power, heat and light.

Mexico, after investigating several promising hot springs districts in the general vicinity of its capital, now plans exploratory drilling to tap potential underground steam supplies.

The project is one of a series being carried on in cooperation with the United Nations technical assistance program to develop various forms of industrial and domestic power in Latin America.

Besides the Mexican project, similar efforts to use convenient volcanic energy are underway in the small Central American republic of El Salvador, and on the British Island of St. Lucia in the Caribbean.

In the South Pacific, New Zealand is building a power station at Wairakei in North Island's famous volcanic region where pools boil, fumaroles and geysers erupt, and mudpots churn furiously.

Dozens of steam bores have been drilled, the deepest reaching 3,000 feet or more. Many provide high pressure that remains undiminished, occasionally even increasing, despite years of spouting.

Electricity to be generated at Wairakei within the next few years is expected to help power New Zealand's industrial future in such fields as paper making and railway transport.

## "Oscar" Comes to College Campus

DURHAM, N. C.—It finally happened: the "Oscar" has come to the college campus.

In this case it's a "Montgomery," a stuffed white toy rat, and at Duke University it goes to top students in courses in elementary psychology.

The idea began with Professors Norman Guttman and Gregory Kimble two years ago in an effort to help students understand that "there is fun as well as knowledge in psychology." Winners of the "Montgomery's" each semester are of course "A" students, and they're exempt from taking the final examination.

The Duke "Montgomery" is perched on a small stand, eating corn. The statue is symbolic of the rat maze experiment often used in basic psychology. "Montgomery" was recently written up in a national magazine and was described in a recent issue of the student newspaper, the Duke "Chronicle."

## Predict 1956 Will Be Record Business Year

LOS ANGELES—Business activity in 1956 will reach new record levels, according to an annual business forecast by 28 faculty members of the School of Business Administration and department of economics on the Los Angeles campus of the University of California.

Previous forecasts by this group of business experts have proved accurate. It predicted, for example, both the mild recession of 1954 and the recovery to peak levels of business activity in 1955. Seen ahead for the new year is a record breaking gross national production reaching \$308 billion. Both wholesale and consumer prices are expected to increase approximately one-half of one per cent.

The U.C.L.A. experts foresee new highs in industrial production. Residential construction and auto output will dip slightly below the extremely high levels of 1953, in the opinion of the group.

## 1955 Population Rise Just Short of Record

NEW YORK—An increase of 2,810,000 during 1955 brought the population of the United States to 166,740,000 at the year's end. The increase was only 13,000 less than the all-time record set in 1954.

This was the tenth year in which the high rate of population growth has continued unabated. During the decade the gain was about 28,000,000, a larger number than in the preceding 21 years.

Natural increase in population during the year—the excess of births over deaths—amounted to 2,570,000 compared with 2,690,000 in 1954.

### Truck Thief

BOSTON—While firefighters were battling a night club blaze in the theatrical district, someone stole one of their bigger fire trucks. The thief abandoned the ladder truck a few minutes later when it crashed against a fence at the Boston Common. The man learned he couldn't make a full swing around the corner without a tiller man to steer the engine's rear end.

## Grade School Band — Victors In District Music Contest

Antioch Grade school's 60-piece band, which was given a 1st Superior rating at the District Music contest, held March 17, in Zion. Antioch won over six other schools in class D, and will go to Champaign-Urbana next month for the finals.

## New Community Band Officers

Newly elected officers of the Antioch Community band are shown planning music for the bi-weekly summer outdoor concerts. They are, left to right, seated, W. V. Lahti, president; Joan Cervenka, treasurer; John Hammond, bandmaster; Johanna Elliott, secretary; standing, John Sershen, vice president; and Clair Elliott, business manager.

## Just Compensation Is Promised for Property Taken for Toll Road

"Full, fair, and just compensation" for property will be the policy of the Illinois State Toll Highway Commission which will shortly begin acquiring the land needed for the construction of 193.3 miles of modern toll-ways in northern Illinois. Newport township is in the path of the toll road.

This was affirmed today by Austin L. Wyman, chairman of the toll highway commission, as the keynote of the land buying program. Wyman said that land activities would begin about April 1, and that approximately 8,000 parcels of land are involved in the Tri-State, East-West, and North Illinois routes at a total cost of approximately \$52,000,000.

"The property involved will be appraised and the owner will be offered fair cash value," he said. "I wish emphatically to assure property owners that there need be no concern that the commission intends to settle value questions in court contests when, as in most cases, agreement can be reached out of court."

"While it is expected that formal condemnation proceedings will be filed on properties after a period of negotiation, this is not the slightest bar to further negotiation. The commission will bend every effort to minimize the inconvenience to the owner and to reach a fair settlement without the necessity for a contested law suit."

Wyman pointed out that the commission employs no land agents or buyers and that all of its land acquisition will be through attorneys appointed and approved as the commission's representatives.

## Annual Stamp Exhibit At Waukegan Masonic Temple April 20 to 22

The 19th annual stamp exhibition of the Lake County Philatelic Society will be held April 20, 21, 22, at the Masonic Temple in Waukegan.

This exhibition is not limited to members. Anyone wishing to display stamps may do so by filling out an entry blank. Deadline for entries is April 12th.

There will be two major prize awards: the best of show, regardless of class; and the best of show confined to members' exhibits only. In addition, ribbons will be awarded to meritorious entries in each class. There will also be special awards made by the Lake County Chapter of the Cover Collector's Club and the Lake County Chapter of the America Topical association.

Bourse tables, an auction, and a banquet are being arranged in connection with the exhibit. For further information write to Mr. Beverly Butts, Exhibition Chairman, Service Center Building, 150 S. Sheridan Road, Waukegan, Ill.

Spring is here. A-a-a-choo!

(continued from page 1)  
versely for giving food and clothing to an Indian outcast.

Minorities Here Fare Better  
Owens then declared that colored people in the United States living under difficult conditions are far better off than minorities in most countries, and certainly their lot is better than the untouchables of India.

The speaker said there is a danger of overemphasis of athletics.

"After all we go to schools to get an education," he said, "and athletics means nothing if we fail to get a good education along with it."

William Brook served as toastmaster and introduced the speakers. Louis Biel, president of the Lions club gave the address of welcome and Donald Schroeder, president of the "A" club, gave the response.

Principal Albert Dittman presented the coaches and Supervisors, they in turn introduced the athletes and cheerleaders.

Announcement was made that the name of James Scully will be placed on the permanent trophy as the outstanding football player and Jerry Huml as the outstanding basketball player as chosen by the fellow players this year.

Harold Cardiff was program chairman.

Beehive coke ovens, which turn about 1.5 tons of bituminous coal into a ton of coke, are enjoying a fresh revival, thanks to record U. S. demands for steel and Europe's need for coke.

INSURANCE COMPANY**  
New York, N. Y.

# So this is HOMEMAKING

The reason I went to cooking school was because a certain movie star did. I saw the movie three times trying to master her technique of breaking an eggshell with one hand. At home, I broke, cooked, and served innumerable eggs. Finally, my husband rebelled.

"Your new RCA Estate range is a pretty versatile unit, isn't it?" he prompted.

"Of course," I bit, "grills, bakes and barbecues all at the same time."

"Great," Bill countered, "grill, bake or barbecue something for dinner tomorrow. Anything, as long as it isn't eggs!"

Sometimes I can be as subtle as Bill. Next day I was off to cooking school where I learned to bake a cake. A real, old-fashioned pound cake that called for six eggs.

A home economist from Whirlpool-Seeger Corporation, the company that made my range, provided the recipe, the helpful hints and the moral support.

Well, it was a perfect cake. Light, evenly browned and with a wonderfully subtle lemon flavor.

Of course, my balanced heat oven was a boon. No hot spots or cold corners anywhere.

Everywhere, I can give you six practice starts with my new recipe.

Bill loved the cake. Ate five pieces and not a word about eggs. Although I can hardly illustrate the one-handed egg-breaking technique, I can give you six practice starts with my new recipe.

**Modern Pound Cake**  
4 c. flour  
1/4 tsp. salt  
3 tsp. baking powder  
1/2 c. butter  
1/2 c. shortening  
2 c. sugar  
6 eggs  
1 c. milk  
1/2 tsp. vanilla  
1 tsp. lemon rind, grated

Sift dry ingredients. Cream butter and shortening thoroughly. Add sugar to creamed shortening slowly and beat well. Add eggs one at a time beating well after each.

Mix milk and vanilla. Add flour mixture and milk to batter alternately, beating after each addition. Stir in grated lemon rind. Pour into greased tube pan. Bake in 325° oven for 1 1/4 hours.

## Delegates to Girl Scout Senior Roundup

Pictured (left to right) are Senior Scouts Annabelle Hrbar and her alternate Pat Jesse, both of Antioch, who were selected earlier this year by the Lakeside Girl Scout Council as delegates to the first national Girl Scout Senior Roundup, to be held near Pontiac, Michigan, June 29 to July 11, 1956.

Chosen on the basis of their Girl Scout and camping skills, and their knowledge of American traditions and folklore, Annabelle and Pat are now attending regular training sessions with representatives from other nearby Councils to further their knowledge and preparedness for the Roundup.

Alternates will attend a special camp session now being planned by the DesPlaines Girl Scout Council.

"The girls will be cooking, sleeping, and eating out-of-doors throughout the two-week period," Mrs. Elizabeth Storch, president of the Lakeside Council explained, "so it is important they know how to live comfortably in the open regardless of weather or terrain."

"The Roundup," she added, "largest encampment ever held by the Girl Scouts of the U. S. A., will bring together more than 5,000 teen-age Girl Scouts and adult leaders from all 48 states, Hawaii, Puerto Rico, and Alaska, enabling the girls to meet other outstanding teen-age Scouts, and to gain a deeper appreciation of American traditions and customs."

Annabelle and Pat are also planning a Senior Roundup display for the Lakeside Girl Scout Council Exhibit, being held April 7th at the Round Lake Consolidated Grade School. The general public is cordially invited to attend.

## Mrs. Louis Biel to . . .

(Continued from page 1)  
cures for cancer, and the spreading of knowledge about it and its danger signals.

Periodic health examinations are saving more and more persons from cancer deaths, the campaign chair-

man said. The vital necessity of such checkups has been increasingly brought home to men and women all over the United States by the ACS education program. Last year more than 47,000,000 leaflets listing cancer's seven danger signals were distributed nationally by our organization.

"Besides the complete annual

physical checkup which the American Cancer Society advocates for all people," Mrs. Biel added, "it advises every woman over 35 to have an additional semi-yearly pelvic examination. With early discovery, doctors say, cures of uterine cancer could be raised from 30 per cent, the existing rate, to as much as 70 per cent.

"With early enough treatment, too, cures of lung cancer possibly could be increased from an existing rate of five per cent to 50 per cent, it is estimated. And before it has otherwise betrayed itself, that kind of cancer is often revealed by a chest x-ray. So the ACS strongly urges such x-rays yearly for both men and women, and semi-annually for men 45 or older.

"Death rates for cancers in other sites also can be cut down substantially through early detection; especially breast, skin, and mouth cancers. That is why we want not only your contribution; we also want you to help reduce the cancer toll by seeing your doctor regularly."

## Educator Believes Rural Youth Needs Special Education

ANN ARBOR, Mich.—Education for rural youth should not follow exactly the same pattern that education for city children follows.

This is the conviction of Robert S. Fox, associate professor of education and director of the University School at the University of Michigan.

He contends that a good educational program should capitalize on the rural background of the child rather than superimpose an urban education that doesn't fit his needs.

Professor Fox asserts, "This business of using the environment with which the child is familiar should permeate every subject and class activity. Take Arithmetic. Problems could be suited to the rural situation. Social studies ought to emphasize rural needs and might include study of the community, conservation, and changes in the community. For young children the teacher could introduce social studies relating to the immediate community—home and school."

"Probably we need in some way to encourage our teachers who come from rural areas, and have some understanding and appreciation of rural problems to stay there," he continues.

## Good Eye Care Should Begin Early

NEW YORK—Today's schools are placing great stress upon general health programs, but not enough of this stress is being placed on the vitally important function of eyesight, according to the Better Vision Institute.

It is estimated that about 83 per cent of all our knowledge comes to us through our eyes. And yet a number of studies show how little attention is paid to the vision of youngsters during the learning period.

Near-point vision has been largely overlooked, although reading is essential to education. Wall chart tests of distance seeing which have been conducted in many schools for years have not led to any large-scale correction of the shortcomings in far-point vision.

A recent study of female office workers who had been out of school less than two years found more than half of the group to have uncorrected low acuity. It's believed that if these girls had been given early correction they would not have made such a poor showing.

Seeing faults, corrected at the earliest possible age, cut down on the amount of visual trouble that people will have to endure in adult years.

## Ancient Lighthouse Gets New Paint Coat

CAPE ELIZABETH, Me.—The famed, oft-photographed, oft-painted old Portland Head Light has a new coat of paint—after 165 years.

The famed lighthouse, a pioneer United States public works project, was painted when put into service in 1791. Periodically ever since it has been whitewashed. The inexpensive process was right in line with the frugality attending its erection when President George Washington ordered the 80-foot tower built of local field stone and brick by Portland-area stonemasons.

Not long ago science developed a plastic vinyl weather-resistant paint, since adopted to coat aids to navigation. The Coast Guard rigged boatswain's chairs and applied about 30 gallons of the new stuff—white—to the spray-drenched, rock-bedded old beacon.

## Basement Oil Gusher Brings Big Surprise

ROYAL OAK, Mich.—It's like a dream come true when an oil "gusher" sprouts forth unexpectedly, but Harry Lamborn's joy over the gusher he found in his basement turned to sorrow when the oil company crew arrived to deodorize the basement.

Not a "strike" at all, the oil company employees explained. It just happened that an over-eager delivery man had overfilled Lamborn's oil tank earlier in the day.

The crew had been sent to clean up the mess left by more than 100 gallons of oil which overflowed onto the tiled floor in the basement.

**Error in Judgment**  
ORANGE, Conn.—When police stopped Miss Mary M. Thom, 22, for speeding, they learned her sports car had no speedometer. Miss Thom explained she gauged her speed by making mental calculations based on the revolutions-per-minute gauge—but apparently had miscalculated.

## Let's Get Rid of Tele-Violence

Through the channels of television "a polluted stream of crime, violence, brutality and sadism is steadily being pumped into the nation's homes," declares Don Wharton in the April Reader's Digest.

In an article condensed from Parent's Magazine, Wharton reports that the Purdue Opinion Panel found, in a single week, 7065 acts or threats of violence on the TV stations of New York alone. In the same city, television shows for children averaged 38 scenes of violence an hour.

A Senate subcommittee found one-fourth of Washington's TV time, in hours from 4 to 10 p. m. devoted to crime and violence. In nine other major cities the subcommittee disclosed an almost equally appalling average.

The Digest author, watching his own television screen during children's hours, observed a "putrid parade" of assorted tortures, blood-lettings, killings, shootings and other crimes.

Wharton says there is "a mountain of evidence" that tele-violence is a cause of juvenile delinquency. The director of the California Youth Authority reports that methods used in juvenile crimes have frequently

## What Is T. L. C.?

These three letters brought forth many questions when they were first used in connection with the nursing profession. If a picture can tell a story, the spirit of T. L. C. is plainly shown here. Who would expect, in the world's largest medical center, to find a baby being cuddled by a student nurse in a big, old-fashioned rocking chair? But to this student of the Cook County School of Nursing in Chicago it is an everyday affair. Both she and the baby love it.

To the student nurse these letters are not a catchword or modern slang. She has learned their meaning in her text books. She is told that "the student must examine herself in order to become

tender, compassionate, gentle and dependable." The great Florence Nightingale told her students to "go in reverent fear to minister to stricken people." Today this is translated as TENDER, LOVING CARE, and is a vital part of nursing curricula.

Tender, loving care may begin with the student's training; but it is bound to penetrate to every part of the hospital. Volunteer workers, who give their time and strength to Cook County's 3400-bed hospital, are constantly on the search for added comforts for its patients. They found the antique rockers and, with their own hands, quilted the headrests and seat cushions.

been taken from television programs. A Brooklyn clinic official who examines some 400 delinquent youths annually says tele-violence gives them the "impression that all life is full of crime," and teaches them crime techniques.

Dr. Frederic Wertham, widely known psychiatrist and author, says that not only "disturbed" children but all children may react to crimes of violence.

The TV industry's code of conduct is not even subscribed to by about half the stations, Wharton states. He urges that parents and civic groups act against objectionable programs by protesting to sponsors, station managers, the Senate Commerce Committee and the Federal Communications Commission. "Tele-violence has reached the proportions of an epidemic," he concludes. "It should be treated like one."

It's Quick and Easy to Apply  
Plastr-Tone

Almost anyone can wield a paint roller but how many people know how to handle plastering tools? Plastr-Tone, the new combination plaster-and-paint product actually re-surfaces the cracked, broken walls and ceilings in your home, and it's as easy to apply as paint. You don't need special tools or skills.

With Plastr-Tone you plaster as you paint, sealing cracks, hiding and disguising rough wall and ceiling imperfections. Just select the color you wish in any of the sixteen-ready-mixed shades of Plastr-Tone and then roll or brush on a beautiful new finish. It's so easy to do, and thrifty, too.

Plastr-Tone can be purchased at

### Customers' Corner

The Fifth Season . . .  
With the advent of Spring, we'd like to remind you of the Fifth Season! At A&P, we call it the Thrift Season, too . . . a year-round proposition that never changes, except to get brighter, savings-wise!  
Right now, for example, A&P is offering the most outstanding array of low prices in our history by way of bowing to our customers for the most extraordinary year we've ever enjoyed!  
We're not content to insure your spending less on food . . . A&P is courtesy-conscious, too! So, if you've an idea on bettering the service, just mention it to your A&P Manager . . . he'll be glad you did!  
Meantime, forget about the weather . . . come see, all the time! You'll save . . . always!

## Just a Typographical Error

What obviously was a typing error occurred in the article reporting the subdivision of the Art Laursen property, formerly the Savage property, last week. The estimate was made at 20 lots which may be a little high, but certainly not 920 as the article was printed. Subdividers usually mark out a maximum of three lots to an acre.

## Grill Has New Front

Work on the new front and remodeling of Thompson's Grill has been completed and the proprietor Ralph Thompson is getting many compliments on the fine appearance of the place.

## LIGHT SAYINGS

A leading interior decorator, discussing the new theory of Inspiration-Lighting, reports: "You can paint, without talent. Paint with light. Vary the intensity and source of a light, and you change its value. You can change the color of furnishings, too, by properly controlling the light upon them."

Don't forget clothes closets when planning lighting for your home. Ample lighting helps you keep your clothes in order and speeds up your daily dressing.

Home lighting is big business. Residential lighting fixtures sales in 1955 are estimated at \$70,000,000. Largest manufacturers are the Moe Light Division of Thomas Industries Inc. and Progress Manufacturing Company. Other leading firms include Framburg, Globe, Halcolite, Hincley, Leader, Lightolier and Virden.

Thomas Fuller, 17th century writer, said: "Light, God's eldest daughter, is the principal beauty in a building."

Overall illumination on textured draperies or rugs minimizes the texture: sidelighting or direct overhead lighting emphasizes it.

Cornice or soffit lighting is ideal for bringing out the full beauty of drawn draperies.

Tinted light bulbs in attractive pastel colors can be used in the "accent" light fixtures which you use to spotlight unusual furniture, draperies or paintings.

"FACTS TO HELP YOU WIN"  
Appraisal of old car is worth \$1,000 bonus to each new car winner. Car winners who buy a new Rambler, Hudson or Nash during contest period, get double the price of the car won in place of a car.

## IT'S EASY TO WIN! ENTER TODAY!

Just give American Motors a name for the world's most advanced car construction. So strong, so modern, so safe, you get a total of \$25,000 Personal Automobile Accident Insurance\* against fatal injury—divided equally between husband and wife—at No Extra Cost!

## FUN FOR THE WHOLE FAMILY!

HOW TO WIN—In 2 to 4 years, you'll see announcements by "Big 3" car makers about a great new development. American Motors cars have it now—single unit construction, developed at a cost of \$50,000,000—the biggest difference in cars today. With others racing to copy our method, we will pay generously for a simple name for our modern, single unit construction we can use in our advertising.

The first name that pops into your mind can be the \$25,000 winning name. A simple name like "Duo-Safe" or "Modern-weld" see your Nash dealer or your Hudson dealer. Get Free Entry Blank and folder "Facts To Help You Win". Please read rules carefully, especially Rule #4 which explains how contest will be judged. In event of ties for any prize, tied contestants will be asked to write a simple 25-word statement which will be judged to break ties, if any.

\*INSURANCE DETAILS—Husband and wife (if members of same household at time of purchase) each get insurance providing for payment of \$12,500 to beneficiary or estate of either—thus driving or riding (separately or together) in their new private passenger American Motors car anywhere in the world during first year of ownership, if fatality results within 100 days after accident. Applies to privately-owned new cars bought in U.S. and Alaska, where state insurance laws permit.

## OUT ON A LIMB

By Stumpy McCulloch

I reckon you've heard folks say, "You're as old as you feel." Well, sir, that sure was true of Oliver Wendell Holmes, the Supreme Court Justice. One day when he was 86, Justice Holmes was walkin' through the park with a friend, deep in conversation. Suddenly he stopped talkin' and gazed across the grass to where a pretty girl was sitting.

"Oh, to be eighty again," he said.

Old folks never fail to amaze me. Take Mrs. M. B. Walker, down in Williamsburg, Va., for instance. Mrs. Walker is an active member of the Tree Farm program, to which a lot of us farmers and wood owners belong. She harvests an average of 850,000 board feet of timber a year, and she still finds time for her demonstrations on conservation and forestry. And she's 81 years old.

One thing Mrs. Walker knows—and most other tree farmers know it too, for that matter—is that it's a big mistake to cut small trees before they're grown. Maybe a man needs money, and he figures he'll cut down those fast-growin' trees and make some quick profit. Well, he shouldn't do it. Premature cutting depletes the soil, and in the long run it cuts profits. The way to improve timber land profits, the experts tell me, is to use conservative thinning and cutting—and other things the Tree Farm program stands for.

My old friend Clyde Kinzey up in Vancouver, B.C., knows a fella who wants to know if a fish goes home and lies about the size of the bait he stole.

Every conservation expert knows the difference between drain and withdrawal. That's how he counts the wood that leaves our forests. Drain accounts for all the wood that's destroyed by fire, insects and disease. But withdrawal refers to the wood that's cut by man for man's use. Last year, withdrawal accounted for 89 per cent of the wood that left our forests. Only 11 percent was drained out. That's a pretty good record.

## Dealers Survey Territory by Air

George Dudley Kennedy, Standard Oil agent for the Antioch area, took a bird's eye view of the fuel oil potentials in his area on Wednesday, March 14.

Boarding a Braniff plane at O'Hare airfield, Mr. Kennedy and a group of his associates spent an hour and 25 minutes in a flight over the greater Chicago area. At a height of 1500 feet, the prodigious growth in residential housing and new industrial installations from the Wisconsin line on the north to Park Forest on the south presented a most pleasing panorama.

After the flight, Mr. Kennedy and the rest of the group convened at the Tally-Ho Restaurant in Park Ridge for a filet mignon dinner.

## From "Life in This Wide World"

A country doctor in northern Ontario left his ancient Model-T Ford in front of the village drug store, and on his return found several of the youths who customarily loitered there making merry at the old car's expense. As he climbed up into the well-worn driver's seat, the doctor inspected the group carefully, then leaned out and said: "The car's all right boys—it's paid for. You," and the doctor looked deliberately from one boy to another—"are not."

Admiral Arleigh Burke, Chief of Naval Operations, tells about the time during World War II when he received a frantic radio from another American ship saying that the flagship was shelling it. Burke radioed back: "We are stopping fire. Please excuse last four salvos, which are now on their way. I hope they miss."

## From the Lighter Side of The Reader's Digest

One question on an examination given to Royal Australian Air Force trainees posed this problem. "What is the first thing you would do if you were piloting an aircraft and

the Queen of England fell out of the back seat?"

The answers varied a good deal. "I'd swoop down and try to catch her," said one hopeful.

"Commit suicide," said another.

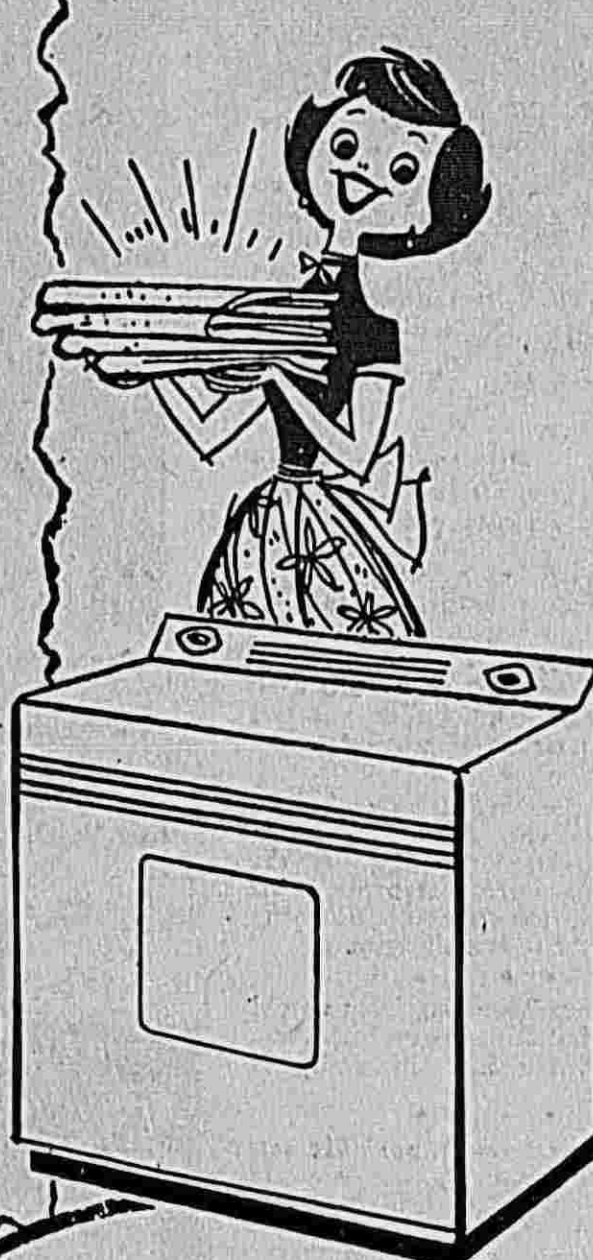

"Disappear," said a third.

The approved solution? Adjust

tabs to compensate for reduced weight in the rear section."

Coal tar chemicals constitute a bulwark of the pharmaceutical industry which produces from coal such things as sulpha drugs and atabrine.

### MRS. *Homemaker's* FORUM by LOU PAYNE

You can quiet a creaking floor by working moist soap into the cracks between the boards.

A rubber pad in the seat of baby's high chair will keep him from slipping down when he gets restless.

No need to wax your stainless steel auto trim. An occasional washing is all you need, for the metal is practically indestructible—gleams forever.

To remove all odor from a pan in which you've fried fish, wash it thoroughly, scald vinegar in it, then rinse.

Save money by using one high wattage bulb instead of several smaller ones. You get 50% more light from one 100-watt bulb than from four 25-watt bulbs, yet use the same amount of current.

To make Perma Starch last longer, first starch articles which need the greatest stiffness, then dilute the liquid with more water for items which need less starching. Save the diluted starch—it will keep.

Glue the rubber ring from an old jar to the bottom of your dog's dish. That way, the dish won't slip or turn over.

To brighten a rug, sprinkle salt over it before using the vacuum cleaner. Sweeps out the soil.

# LET'S COMPARE! COMPARISON PROVES!

## Among the Candidates for the State Legislature—

1. Candidate A tells of 2 years experience in public office. Candidate B tells of 4 years in a public office. Candidate C has 7 years in a major elective office.
2. Candidate A tells of 2 partial years of night school. Candidate B states that he is a high school graduate. Candidate C has seven years of college and university training in the field of government.
3. Candidate A mentions briefly being in the war. Candidate B tells of 4 years wartime infantry service. Candidate C has 5 years wartime service, and 18 years in the infantry reserves besides.
4. Candidate A has lived in Lake County for many years. Candidate B was born in Lake County. Candidate C's people were born in Lake County for five generations back. C is descended from the original settlers who took Lake County away from the Indians.

Who is candidate C? It is **Robert Coulson**, the third name on the ballot; for seven years Mayor of Waukegan, graduate of Dartmouth College and the University of Chicago.

### What are candidate C's handicaps and shortcomings?

1. C is not a member of any voting syndicate.
2. C is not allied with any other candidate.
3. C approaches voters by the front door, without paid workers, without using threats of police pressure; without nailing signs all over your telephone poles.
4. C has not pledged his support to any inner circle.

How serious are these disadvantages? That is for you to decide.

That is why we have elections; to let you decide what kind of politicians you want.

For the sake of your future, vote for the candidate with the best past.

## One-Third Nation's Work Force Under Some Pension Plan

About one-third of the nation's employed civilian work force is now covered by some form of pension plan, the Institute of Life Insurance reports. The majority of these workers are also covered by Social Security.

It is estimated that some 22,000,000 persons are enrolled under pension plans, almost one-fifth of them under plans insured by life insurance companies.

Private pension plans of all types account for over 60 per cent of the total number of these persons; state, county, municipal or Federal civil service plans for 20 per cent; the balance being railroad employees or persons under profit-sharing plans with some retirement feature.

The greatest rate of growth has been the private pension plans, those covered by such plans having more than doubled in the past ten years and now numbering five times the number reported in 1935.

"The years since the bottom of the depression of the 1930's have seen a tremendous growth in retirement-consciousness and financial planning for retirement," the institute says. "From the best estimates available, it appears that the number of workers covered by pension plans of all types, private and public, has increased by almost 350 per cent since 1935.

Private pension plans have shown the greatest percentage increases in these years. The number of private pension plans in force rose from 1,091 in 1935, to 7,425 in 1945 and no less than 20,000 in 1955, at least a twenty-fold increase for the twenty-year period.

## Popularity Rising For Ice Cream

CHICAGO—Space Cadet in 1980 may well have an ice cream vending machine in his super space jet, according to Harry Bresler, general manager of a Chicago ice cream company.

On the 25th anniversary of the founding of his company, Bresler predicts that 25 years from now ice cream vendors will be on every corner, and will be as common as small boxes are today. And, he says, the purchaser of ice cream will be able to make a choice of hundreds of flavors, each one custom-mixed on the spot.

As evidence of the all-encompassing popularity of ice cream, Bresler noted that the expedition to the South Pole by Admiral Richard E. Bird took along a generous supply of ice cream, indicating that consumption of ice cream "is a matter of desire, not temperature."

## Hundreds of Top-Paying Positions Go Begging

NEW BRUNSWICK—How would you like to have your pick of 100 top-paying positions in a spanking new field that's mushrooming like an atomic explosion?

This seeming impossible situation is a very real thing today in the business of designing, operating and "feeding" information to huge, complex computing machines in the electronic "brain" family.

Dr. Fred Fender, Rutgers University professor of mathematics and authority for the above claim, is one of some 200 college professors around the country who hold the key to this lush and nationally essential occupation. The key is a course that Rutgers calls "Numerical Analysis and Programming of Digital Computers."

The era of computing machinery is scarcely 10 years old, but in this electronic age these machines have created a demand for skilled practitioners far greater than the colleges can supply.

## Atomic Sterilization Of Food Not Here Yet

CHICAGO—Sterilization of foods by nuclear radiation isn't just around the corner.

This popular belief was shattered by Dr. Leonard Reifel, supervisor of nuclear physics at Armour Research Foundation of the Illinois Institute of Technology.

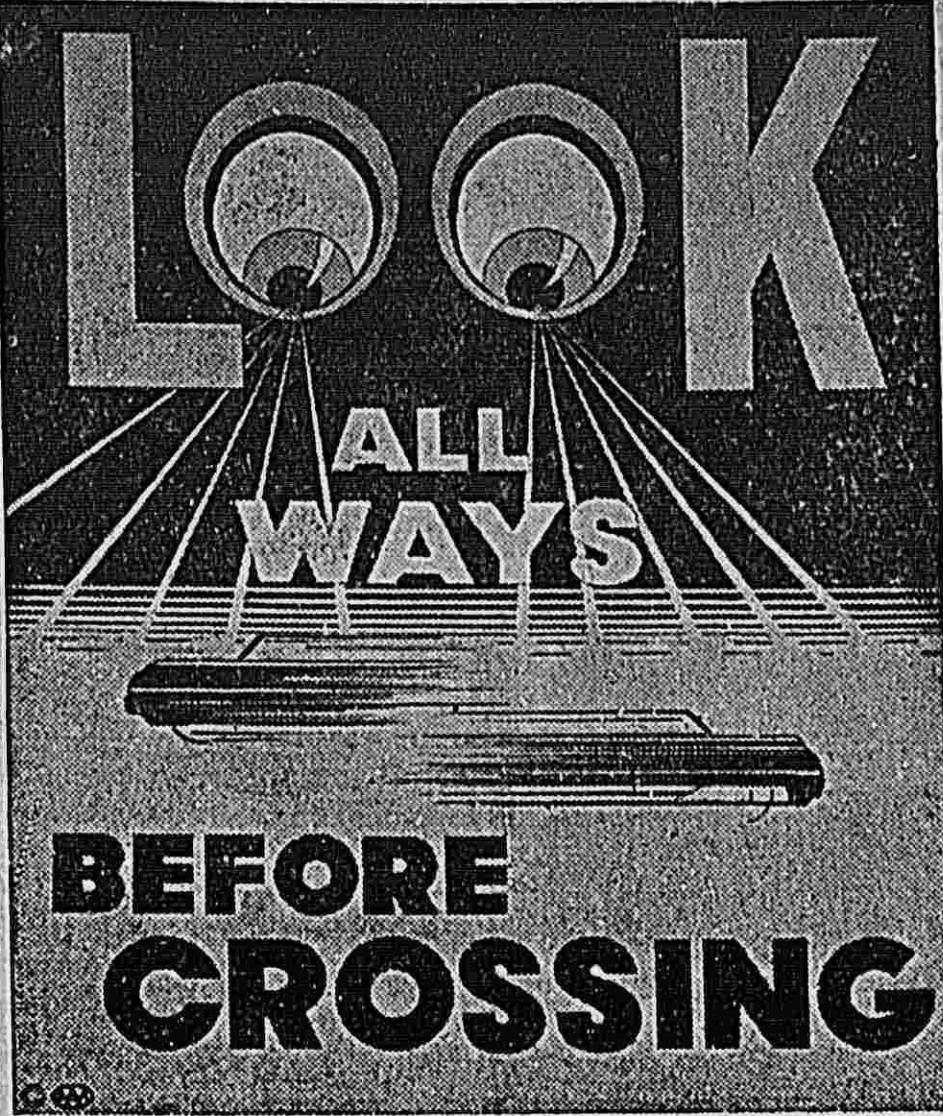

"There has been a great deal of talk about radiation sterilization," he said, "but the hard facts are that it doesn't look possible for the near future, at least."

"And for one good reason," he added, "radiation sterilized foods taste, smell, and look terrible!"

## Rainmaker's Regrets

OKLAHOMA CITY—Dr. Irving P. Krick, Denver cloud-seeder, sent his regrets and said he was unable to be guest of honor of a little theater group at the opening night of a play called "The Rainmaker."

They sent Krick a special invitation and offered him the umbrella concession free.

"Look all ways before crossing" is a good safety rule for all of us to practice. More than half the accidents in urban areas involve pedestrians and many of these occurred because the pedestrian failed to look before crossing the street. The poster, pointing out the importance of this safety rule to school children, is being distributed by the Chicago Motor Club to more than 44,000 elementary school classrooms in Illinois and Indiana.

## LIFE INSURANCE

## Osmond Insurance Service

Rtes. 59 and 173 Antioch Phone 985

Nothing, absolutely, nothing does the job as well as life insurance. There's a plan for every need (mortgage, education, estate, etc.) and budget. Only life insurance offers savings plus protection.

IT COSTS NO MORE TO GET THE BEST

## Help Custodian Cut Anniversary Cake

Clarence Cunningham celebrated 20 years as a custodian at Antioch Township High School on Tuesday by preparing to cut a cake provided by Mrs. Margaret Moorman, school secretary, for the occasion. Other custodians waiting to help with the cake are standing, L. to R. Harry Peterson, John Serphon, Art Andersen, and Porter Larson.

Capt. David McCampbell, USN, is the top living World War II ace. He downed 34 Japanese planes—nine in one battle. Now he is Test Coordinator at the Naval Air Test Center, Patuxent River, Md.

Coal from under the sea makes an important annual contribution to Britain's total tonnage and in 1954 undersea mines produced upwards of 30 million tons, or about nine per cent of the year's volume.

## Giant Hatrack.

Photo: Courtesy Canadian National Railways  
Jack Fleming displays the fine 16-pointer he downed in the snow just outside the boundary of Jasper National Park in the Canadian Rockies. Jack, an employee at the Canadian National's internationally famous Jasper Park Lodge, captured his trophy with one shot from 400 yards. The elk head is probably the biggest taken in the area this season, but one faulty point prevents it from being a record. The animal was shot near Rock Lake, near Brule, Alta.
